

A Breakthrough **Circular** Solution
in **Sustainable Packaging**

An innovative, PE Stretch Film that contains
35% of Post Consumer Recyclates

MEGAPLAST's industrial activity is closely linked with sustainable development and driven by technological innovation and commitment. We envision to produce packaging solutions that will preserve our planet from climate change.

With our **Reborn35 FIBER FILM™** product line, we benefit in reusing the materials, minimizing virgin material usage, achieving circularity of the product, and drastically reduce waste and carbon emissions

35%
Post Consumer
Recyclates

50% less CO₂
than market
average

100%
Recyclable

Reborn35 FIBER FILM™ holds all high-performance product benefits of MEGAPLAST Fiber Film Series, produced with reinforcement elements (fibers) that increase tear resistance.

Consistency
& Zero breaks

Superior load
safety & pallet
stability

Resistance
to tears
& punctures

Excellent
holding force

High efficiency PE Stretch Film for any pallet loads

for **Light (L)** applications, is designed to usually replace a stretch film of 17µm thickness or less, with pre-stretch up to **210%**

for **General Purpose (GP)** applications, is designed to usually replace a stretch film of 20µm thickness, with pre-stretch up to **230%**

for **High Demanding (HD)** applications, is designed to usually replace a stretch film of 23µm thickness or more, with pre-stretch up to **250%**
